How to playback video recorded on TRENDnetView Pro software?

Launch the software by clicking on the short cut on your desktop after you install the TRENDnetView Pro.

1. Click on the **Open Archive** button on tool bar.

2. Double click on the camera you want to playback the video.

Frequent Asked Video Playback Questions

Q: What the orange and purple lines on the time line mean?

A: Motion triggered video recording will be showed in orange. Recorded audio will be displayed in blue.

Q: Can I jump to the next or previous motion triggered recording when I am playing back the video?

A: Yes. Click **Seek to next motion** or **Seek to previous motion** button on the tool bar to skip the video.
