

TFM-560PCIplus **56K (V.90) High Speed Internal Fax PCI Modem**

TRENDnet's TFM-560PCIplus Internal Fax PCI Modem gives users faster, more efficient Internet downloads. By a few mouse clicks, the TFM-560PCIplus Voice/Fax PCI Modem lets you get on-line with high speed. It is ultra fast with 56Kbps fax capability and PCI interface that provide users with the highest possible data communication rates, reliable error-free transmission, and widespread interoperability with other users. The TFM-560PCIplus provides fast and easy installation with free communication software. Users can browse through more web sites faster now with TRENDnet's TFM-560PCIplus and your ordinary analog phone line for time and cost savings.

FEATURES

- ... Intelligent Rockwell chipset supports Kflex56 and V.90
- ... High Speed 56Kbps data download and 14.4Kbps fax communication
- ... Group 3 fax protocol/RS-232 interface
- ... Voice encoding and decoding/TAM functions
- ... Industry standard protocol for data compression and error correction
- ... Compatible with Windows 95/98/NT 4.0 & 5.0 and Unimodem/V
- ... On-board DSP and controller upgradeable with flash memory
- ... Free Voice/Fax/Data Communication Software
- ... 5 Year Warranty

BENEFITS

- ... **User Friendly:**
Easy installation and startup can be accomplished!
- ... **Speed:**
The TFM-560PCIplus is capable of high speed V.90 56,000bps download speed.
- ... **Economical:**
Provides low-cost connectivity to the Internet or corporate networks.
- ... **Affordability:**
TRENDnet's TFM-560PCI completes data and fax set of standards.

TFM-560PCiplus

56K (V.90) High Speed Internal Fax PCI Modem
