

2-Port USB/Parallel Print Server

TE100-P11 (v1.0R)

The 2-Port USB/Parallel Print Server turns most standalone USB and Parallel printers into shared resources on your network.

Increase office efficiency by sharing older Parallel port printers and newer USB port printers with everyone on the Local Area Network (LAN).

Printer management is made easy with an intuitive utility application and a user-friendly configuration interface. LED indicators and bi-directional support provide a user friendly printing experience. Works with most Windows based operating systems.

FEATURES

- Share two printers (USB and Parallel) over a Local Area Network (LAN)
- Standalone device requires no host computer
- Line Printer Remote (LPR) printing for Windows networking environments
- Supports most USB and Parallel connection type printers*
- Simple setup with Windows based utility
- Built-in flash memory for firmware upgrades
- 3- Year limited Warranty
