

TEW-P1U

Wireless Print Server with 1 USB Printer Port

TRENDnet TEW-P1U is a print server that transforms virtually all stand-alone USB printer into a shared network printer. The TEW-P1U provides IEEE 802.11b 11Mbps wireless interface for integrating into existing wireless network. The TEW-P1U is designed for printers equipped with USB 2.0 compliant printer port and it is an ideal network solution to convert conventional USB printer into a shared resource on the network. Network professionals can easily manage the print server using Web Browser or Windows-Based software and utilize the TEW-P1U to promote productivity in a workgroup environment with low equipment cost.
