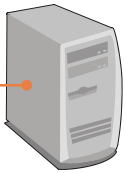
Примечание: Поскольку у устройства TFU-430 имеется возможность «горячего» подключения, то его можно присоединять и отсоединить пока компьютер включен. Несмотря на то, что устройство TFU-430 питается от шины и не нуждается в адаптере питания, рекомендуется использовать адаптер питания из комплекта.



1. Включите компьютер и дождитесь загрузки.

2. Присоедините **сетевой шнур** к **адаптеру питания.**

3. Присоедините адаптер питания к концентратору USB.

5. Присоедините кабель IEEE 1394 FireWire из комплекта к устройству TFU-430.

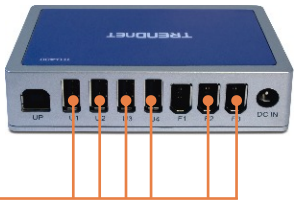
Примечание:

1. U1, U2, U3 и U4 являются USB-портами в нисходящем направлении. Не присоединяйте USB-кабель, идущий от компьютера к USB-портам, расположенным в нисходящем направлении.
2. Один из портов IEEE 1394 Firewire должен быть присоединен к компьютеру в качестве порта, расположенному на пути к коммутирующему узлу. Любой из портов IEEE 1394 Firewire может служить портом на пути к коммутирующему узлу.

6. Присоедините другой конец USB-кабеля из комплекта (тип A) к компьютеру.

7. Присоедините другой конец кабеля Firewire из комплекта к компьютеру.

8. Присоедините устройства USB и FireWire к остальным портам.



Установка завершена.

Troubleshooting

Q1: Where is the Driver CD-Rom for the TFU-430?

A1: The TFU-430 does not require unique drivers; it uses generic USB and preinstalled FireWire drivers provided by your operating system. You must have properly installed USB and/or FireWire ports on your computer.

Q2: Can I connect or disconnect the USB cable while the computer is on?

A2: Yes, you can connect or disconnect the USB cable, or any external USB device while the computer is on because the USB interface is Plug-and-Play and hot-pluggable.

Q3: My computer does not detect my FireWire device. What should I do?

A3: First, make sure you have connected the included FireWire cable from F1, F2, or F3 port on the TFU-430 to the FireWire port on your computer. Please see section 3 for more information. Second, your computer must have the FireWire Host Controller installed properly for you computer's FireWire port to work. For more information regarding FireWire Host Controller installation, please refer to you computer's User Manual.

Q4: My computer does not detect my USB device. What should I do?

A4: First, make sure you have connected the included USB cable from the **UP** port on the TFU-430 to the USB port on your computer. Please see section 3 for more information.
