

## 10-Port Gigabit PoE++ Switch

TPE-BG102g (v1.0R)

- $4 \times$ Gigabit PoE++ ports (up to 95W)
- 4 x Gigabit PoE+ ports (up to 30W)
- $2 \times$ Gigabit SFP Slots
- 240W PoE power budget
- 20Gbps switching capacity
- Internal power supply
-Sturdy 1U 19" rack mountable metal housing

TRENDnet's Unmanaged Gigabit PoE++ Switches provide high bandwidth performance, ease of use, and reliability. These IEEE 802.3 bt compliant switches feature a sturdy 1 U 19 " rack mountable metal housing with mounting brackets included. These high power PoE++ switches also offer SFP slots for long distance fiber network applications.

Installers and integrators can save on equipment costs and reduce installation time with TRENDnet's unmanaged high power PoE++ switches by delivering up to 95 W per port of PoE++ power and data over existing Ethernet cables. Easily network PoE devices such as high-power wireless access points, PTZ cameras, digital signage, IPTV decoders, access controls, and more with these high power PoE++ switches.

## TRECDIET

## Gigabit Ports

Gigabit ports provide a full switching capacity to this high power PoE++ switch, with SFP slots for long distance fiber applications.

## Hardware Design

With a sturdy metal housing and rackmount brackets included, this high power PoE++ switch is well-suited for 19" 1U rack installations.

## PoE Power

A 240W total PoE power budget on this high power PoE++ switch supplies four PoE++ devices with up to 95W per port, and four PoE+ devices with up to 30W per port.

## NETWORKING SOLUTION

$4 \times$ Gigabit $\mathrm{PoE}+$ ports (up to 30 W )

## FEATURES

Hardware Design
With a sturdy metal housing and rackmount brackets included, this high power PoE++ switch is well-suited for 19" 1 U rack installations.

Jumbo Frame
Sends larger packets, or Jumbo Frames, for increased performance

PoE Power
A 240W total PoE power budget on this high power PoE++ switch supplies four PoE ++ devices with up to 95 W per port, and four PoE+ devices with up to 30 W per port.

## LED Indicators

LED indicators conveniently convey port status on the high power PoE++ switches

## Gigabit Ports

Gigabit ports provide a full switching capacity to this high power PoE++ switch, with SFP support for long distance fiber applications

## SPECIFICATIONS

## Standards

- IEEE 802.1p
- IEEE 802.3
- IEEE 802.3u
- IEEE 802.3x
- IEEE 802.3ab
- IEEE 802.3af
- IEEE 802.3at
- IEEE 802.3bt

Device Interface

- $4 \times$ Gigabit PoE++ ports
- 4 x Gigabit PoE+ ports
- $2 \times$ Gigabit SFP Slots
- LED indicators

## Data Transfer Rate

- Ethernet: 10Mbps (half duplex), 20Mbps (full duplex)
- Fast Ethernet: 100Mbps (half duplex), 200Mbps (full duplex)
- Gigabit: 2000Mbps (full duplex)
- Fiber: 2000Mbps (full duplex)

## Performance

- Switch Fabric: 20Gbps
- RAM Buffer: 512KB
- MAC Address Table: 8K entries
- Forwarding Rate: 14.88Mpps (64-byte packet size)
- Jumbo Frames: 9KB

## Power

- Input: $100-240 \mathrm{~V}$ AC, $50 / 60 \mathrm{~Hz}$, internal power supply
- Max. Consumption: 280W

## PoE

- PoE budget: 240W
- Port 1 - 4: up to 95W
- Port 5 - 8: up to 30W

MTBF

- 427,588 hours

## Operating Temperature

- $0^{\circ}-40^{\circ} \mathrm{C}\left(32^{\circ}-104^{\circ} \mathrm{F}\right)$

Operating Humidity

- Max. 90\% non-condensing

Dimensions

- $330 \times 230 \times 44 \mathrm{~mm}(13 \times 9.0 \times 1.7 \mathrm{in}$.)

## Weight

-1.7kg (3.74 lbs.)
Certifications

- CE
- FCC
- ETL

## Warranty

- 3 year

Package Contents

- TPE-BG102g
- Quick Installation Guide
- Rackmount kit
- Power Cord
