

TC-15FSC *15 Feet SC-Type Fiber Cable*

Fiber optic cable is used in applications that require complete immunity to electrical interference. It's ideal for high data-rate systems such as FDDI, multimedia, ATM, or any other network that requires the transfer of large, time-consuming data files. TRENDnet has specifically designed the TC-15FSC to provide easy and trouble-free fiber cable installation. In addition the TC-15FSC also offers greater bandwidth and security for today's demanding network applications. The TC-15FSC is a professional fiber patch cord that delivers convenience at a very economical price.

FEATURES

- 15-foot multimode fiber cable with SC type connectors
- Core diameter: 62.5 microns
- Cladding diameter: 125 microns
- Duplex design, ideal for workstations, fiber switches and servers
- Lifetime Warranty
