

10dBi Outdoor Omni-Directional Antenna TEW-A0100

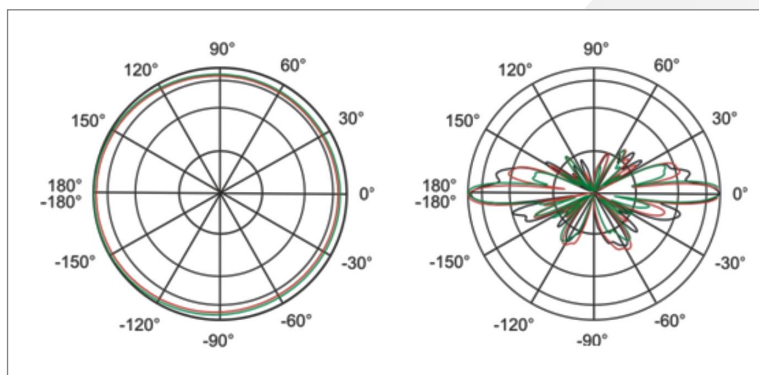

The 10dBi Outdoor Omni Directional Antenna expands wireless coverage for existing 802.11b/802.11g wireless networks to improve wireless performance at longer distances. Perfect for Wi-Fi hotspots and wireless home networks, the antenna blankets any given area with Wi-Fi signals to provide continuous connectivity in every direction. It can also withstand 134mph winds and lightning strikes for outdoor use.

* This dBi gain does not factor cable loss. Performance estimations are for typical use; range will vary with site conditions.

FEATURES
