Q1: Can I connect or disconnect the USB cables while the computer is on?

A1: Yes, you can connect or disconnect the USB cable, or any external USB device while the computer is on, because the USB interfaces are Plug-and-Play and hot-pluggable.

Q2: I have a USB 1.1 cable. Can it work with USB 2.0 devices?

A2: Yes, it works but it may cause problems for connecting high-speed USB 2.0 external peripherals. Therefore it is recommended that you use a certified USB 2.0 cable.

Q3: After successful installation of the TMR-61U2 USB 2.0 6-in-1 Memory Card Reader/Writer, I inserted my memory card into the slot and it is not working? What should I do?
