

## 200Mbps Powerline AV Adapter with Bonus Plug TPL-304E (V1.0R)

The 200Mbps Powerline AV Adapter with Bonus Plug, model TPL-304E, uses any electrical outlet to create a secure high speed building-wide network. Connect one adapter to your network and plug another adapter into any electrical outlet on your electrical system for instant high speed network access.

Never lose an electrical outlet with the built in socket on the front of the adapter. A Noise Filter maintains optimum connection speeds when everyday household appliances such as toasters, washing machines, and coffee makers create electrical background noise.

Connect adapters quickly using the convenient one-touch 'Sync' button. Use up to 8 adapters to network devices in different rooms without running new cabling. Power Save mode reduces power consumption by up to 70%. Quality of Service technology prioritizes video, audio, and online gaming. Advanced AES encryption secures your network. This adapter is ideal for use in buildings that interfere with wireless networking signals.
